2026 House Voter Scorecard

House Bills

Celebrating the country's history of church-state separation and recognizing the 250th anniversary of the founding of the United States
Celebrating Church-State Separation is a resolution celebrating the nation's history of church-state separation on the occasion of its 250th birthday.

Do No Harm Act:
HR1954, The Do No Harm Act, clarifies the Religious Freedom Restoration Act's original intent to protect religious freedom without letting it be used to harm or discriminate against third parties. Prevents individuals or corporations from using religious objections as a defense to bypass federal civil rights and public protection laws

The Fair Treatment of Religious Organizations Act
H.R.8117, the Fair Treatment of Religious Organizations Act, is a bill that says if an organization that might receive federal funding says it has a religious belief, that belief shall not "fail to be treated as a religious belief merely because such belief is not compelled by or central to a system of religion." (Think "We believe LGBTQ people are evil."

The No Shari'a Act
HR5512, the No Shari'a Act, restates the First Amendment and points out that it "prohibits the application of Shari'a [Muslim] law in the United States where it would violate constitutional rights."

The GRACE Act
H.R.5075, the GRACE Act, would withhold federal funding from schools that do not allow a religious exemption for vaccine requirements.

The Free Speech Fairness Act
HR2501, the Free Speech Fairness Act, would strike down the Johnson Amendment which prohibits churches and other nonprofits from endorsing political candidates.

Congressional Freethought Caucus Membership:
Founded in 2018, the CFC strives to protect the secular character of our government by upholding the separation of church and state in debate and legislation, and it promotes policy solutions grounded in reason and science.
